CENTRAL EUROPE PROGRAMME
ANNOUNCEMENT OF A RESTRICTED CALL FOR STRATEGIC PROJECTS
STEP 1 - INVITATION TO THE SUBMISSION OF AN EXPRESSION OF INTEREST
TO JOIN THE FUTURE PROJECT PARTNERSHIPS

12 JULY 2010

1. INTRODUCTION

In order to strengthen its relevance and its contribution to the Lisbon and Gothenburg agendas the European Territorial Cooperation Programme CENTRAL EUROPE has set in place a targeted methodology aimed at the implementation of strategic projects whose themes have been previously identified at Programme level. The limited number of projects to be funded and consequently the limited expected partners' involvement per country require a high commitment of the selected actors which will represent their entire country and - consequently - spread information and reached results at national level and beyond.

The present Announcement is part of a wider methodology strongly characterized by a top-down approach, according to which the CENTRAL EUROPE Monitoring Committee (hereinafter: MC) not only outlines the ideal partners' profile but also the technical content of the strategic projects, whose concepts are provided in Annex 1.

The purpose of this Announcement is to enable the European Territorial Cooperation CENTRAL EUROPE Programme to draw a list of potential interested institutions/bodies to be eventually invited to the submission of strategic project proposals.

Interested institutions/bodies willing to apply as potential partners for the implementation of part of the strategic projects shall be asked of:

- Performing some of the activities listed in the chosen project concept in accordance with the EU, Programme and national rules/laws;

- Cooperating with other partners, mainly coming from the other CENTRAL EUROPE regions, previously identified at national level and finally selected by the MC (see also § 5);
- Committing themselves for a sound project implementation along the entire project duration;
- Ensuring a wide spread of the outputs and results achieved;
- Ensuring the sustainability of the projects results also beyond the region where they are located.

2. LEGAL FRAMEWORK

This Announcement is based on § 6.3 of the Operational Programme, approved by the European Commission on 3 December 2007 (No. CCI 2007CB163PO061) establishing the European Territorial Cooperation Programme CENTRAL EUROPE, hereinafter referred to as “CENTRAL EUROPE”.

The detailed conditions for the submission of the Expression of Interest are provided in the present document.

3. THE CENTRAL EUROPE PROGRAMME

3.1 OBJECTIVES

CENTRAL EUROPE is a European Union Programme that encourages cooperation across the countries and regions of Central Europe to improve innovation, accessibility, and environment and to enhance the competitiveness and attractiveness of their cities and regions.

The Programme shall, hence, play a considerable role in strengthening the development efforts of these countries and their regions, while contributing to an integrated development of the entire programme area by promoting trans-national cooperation projects with mutual benefit, tangible outputs and concrete results.

3.2 THE PROGRAMME AREA

The CENTRAL EUROPE Programme area includes regions from Austria, the Czech Republic, Germany, Hungary, Italy, Poland, Slovakia, Slovenia and Ukraine^{1 and 2}.

3.3 THE PROJECTS CHARACTERISTICS

The Programme financially supports the implementation of projects within the following priorities:

1. Facilitating innovation across Central Europe;
2. Improving accessibility to, and within, Central Europe;
3. Using our environment responsibly;
4. Enhancing competitiveness and attractiveness of cities and regions.

Within the specific terms of the restricted call for strategic projects at least one institution/body from each of the 8 EU CENTRAL EUROPE countries shall participate in each project. However, the financing partners shall come from at least 6 CENTRAL EUROPE countries (more information is provided in § 6)³.

The following ERDF co-financing rates apply:

- up to 85 % for applicants of Czech Republic, Hungary, Poland, Slovakia, Slovenia;

⁴ As referred to in the Commission Regulation (EC) No 1998/2006 of 15 December 2006 on the application of Articles 87 and 88 of the Treaty to *de minimis* aid published on the Official Journal of the European Union L 379 on 28 December 2006.

The complete strategic project concepts' descriptions are provided in Annex 1 of the present Announcement.

5. THE SELECTION PROCESS FOR AWARDING THE STRATEGIC PROJECTS

The process for funding the strategic projects is characterized by a two-steps approach:

- 1) the identification of suitable partners able to ensure a successful project implementation; their appraisal is performed in accordance with the partner's characteristics included in each project concept (Annex 1) and with the eligibility and quality criteria as laid down in the following paragraphs and chapters;
- 2) the assessment and selection of the projects, elaborated in accordance with the characteristics described in the project concepts by the partnerships established within the partners selected in the previous step 1.

A manageable number of institutions/bodies (as described in § 6) - ideally around 6 per project concept - and consisting of financing partners and associated institutions - shall be selected in each EU country member of the CENTRAL EUROPE Programme. Being selected as a suitable partner at national level may not necessarily give the full right/insurance of being later involved in a strategic project; it will be up to the MC to take the final decision on possible partnerships and to approve projects.

As far as step 1 is concerned, the initial selection process shall be performed at national level by the relevant national authorities or by the CENTRAL EUROPE Managing Authority/Joint Technical Secretariat according to § 10 below. The MC shall discuss, if necessary amend and validate the results of the selection of institutions/bodies performed at national level. Additionally, the MC shall be in charge of approving the proposals elaborated by the constituted partnership (step 2).
