

# EU Project partnersearch

NAME OF PROJECT:	Your izeone for a window on Europe
EU FUNDING PROGRAMME:	EU Programme for Lifelong Learning 2007 – 2013 / COMENIUS
PROJECT DESCRIPTION:	<p>Welcome to your Innovation zone to explore Europe : We intend to share a range of skills and expertise in the effective use of ICT to enhance children's learning potential and European awareness . It is our intention to identify best practise in the effective use of ICT within our schools and share this through a range of media, e.g. interactive website, online learning platforms and video resources which celebrate the best practise in each partnership. We have a particular interest in the effective use of new technologies such as mobile learning devices (specific the daily use of iPads).</p>
POSSIBLE ACTIVITIES	<p><b>Main guide lines</b>  It is about exploring each other's culture, environment, language, ... by using iPad apps.  It will be simple activities where a lot of students can participate into the project.  Communication: face time, email, ...  Making a song by using the instruments apps:  <a href="http://www.youtube.com/watch?v=2W9z-nrTQD4">http://www.youtube.com/watch?v=2W9z-nrTQD4</a>  Presenting your class, school environment, activity: Photo Booth, iMovie, iPhoto, ...  Easy language learning: book creator , a powerful app. One can add sound to pictures. You even can publish your book on ibook.  Art: many apps , a lot of creativity  History: visit an historical city/ museum and make a presentation of the highlights. In case of a museum: create your own by using apps and share  Math challenge: make exercises and send them to partner schools. (Wiki's)</p> <p>There are many apps we can learn to use and swap outcomes very easily by dropbox or other tools.</p> <p><i>This is a call to join our project. This will not be on top of your curriculum. It will not mean you will have a lot of work. My English partner and me have done many Comenius projects and always enjoyed them.</i></p>
PREFERRED PROFILE OF PARTNERS::	<p><b>Schools (age 3 – 12)</b> from other regions in Europe, interested in sharing their experience in the effective use of ICT within their schools and in exploring each other's identity.</p> <p>(one partner school from the UK is already on board)</p>
