2. Project Information

Project Title:

Corporate Governance and Markets: corporate and board of directors responsibility.

Abstract of the project (*max. 500 characters*):

The European Commission Action Plan “European Company Law and Corporate Governance” (COM [2012] 740 final, 12/12/2012) puts the regulation of corporate governance at the forefront of interest.

In this context, the rules on liability of companies and managers are a means to regain the confidence of investors in the financial markets and a way to prevent future financial crises.

Key aspects of this research are: a critic comparative study of the current governing bodies structures (monist and dual system, with special reference to the European Public Company); duties and liability of the members of the board of directors, and corporate responsibility or liability of the company in itself (contractual, non-contractual or/and tort).
