E.D.G.E – European anti-Doping GEneration

Deadline 12/5/2016

Co.Ge.S Don Lorenzo Milani Social Cooperative was founded in 1995 in Italy and located near Venice. It focuses on research activities, analysis and deployment of social projects. Its goals is the identification of new intervention models and to answer to emerging needs through the creation and implementation of new services. COGES is divided into some operational units: Therapeutic communities, Migration, Labor inclusion unit. It has a project development department with 3 major intervention areas dedicated to analysis and drafting of local, national and European social and sanity projects, with a specific focus on youth and young people with few opportunities; research and modelling of intervention practices; training, communication and dissemination of good practices.

Coges is going to apply for a new project in the field of Sport, under the Erasmus+ programme. The project is open to partners from at least 4 other countries. The partners can be:

- a public body in charge of sport at local, regional or national level;
- a National Olympic Committee or National Sport confederation;
- a sport organisation at local, regional or national, level;
- a national sports league;
- a sport club;
- an organisation or union representing athletes;
- an organisation or unions representing professionals and volunteers in sport (such as coaches, managers, etc.);
- an organisation representing the 'sport for all' movement;
- an organisation active in the field of physical activity promotion;
- an organisation representing the active leisure sector;

We would like to involve at least 2 partners from each country. The project covers the 80% of the total budget costs so each partner has to be ready to co-finance the remaining 20%. The project will last 24 months.

The main objectives are:

- To promote a sport culture against doping among young sportsmen and sportswomen
- To encourage ethical behaviours in sport
- To integrate the values of sport in the lifestyle of young people

In order to reach these objectives, we would like to propose the following actions:

- Establishment of a group of 40/50 young sport practitioners in each country who will be the main target group of the activities
- Participation of the group of the young people mentioned above to a non formal education path, composed by seminars, meetings and sport activities focusing on doping and values. The workshop will be run using interactive methods and promoting the meeting between

the youngsters and professional sportsman and sportswomen recognized due to their fair-play

- Realisation of a national youth camp (3/4 days) where the group will create a National Anti-Doping Manifesto and will elect 3 Junior Anti-Doping Ambassadors
- Development of a European meeting among the Junior Anti-Doping Ambassadors from all partner countries with the aim of creating a EU anti-doping strategy for young sportsman and sportswomen
- Dissemination of the above strategy through meetings in schools, with coaches, sport federations and policy decision makers.
